IT HINDERS BUSINESS.

Waiting State of Things Not to Be Desired.

YET IT HAS NOT HURT MUCH.

Warlike Reports Are Used by Stock Operators to Sway the Market, but the Common People Are Not Deceived.

New York, March 26.—R. G. Dun & Company's weekly review of trade says a waiting state of things always hinders business to some extent.

With more than \$34,000,000 gold received or on its way since this movement began, with ample bank reserves and the treasury reserves, and a redemption of notes in all ways nearly a third smaller than in February to date; with no stringency in the money market and sterling exchange weak; with the volume of business at clearing houses outside New York larger than in 1892 by 6.9 per cent this month, and with failures nearly 30 per cent smaller than last year and 52 per cent smaller than in the same month of 1892, there is not much visible ground for panic, even if earnest efforts should fail to keep peace with honor.

Warlike reports come every day and stock operators make the most of them, and yet the average of prices of railroad stocks is \$53.08, against \$53.20 two weeks ago.

Nor have industrial operations been perceptibly affected, except where extraordinary buying for some weeks past has made necessary a pause for breath, so to speak, or where unnatural prices had caused a halt before the destruction of the Maine.

Some decrease in new engagements would be expected with war apparently near, but as yet scarcely any indication of decrease for that reason is seen. It is difficult to take dismal views when the nation is surpassing all records in marketing products.

Failures for the week have been 251 in the United States, against 291 last year, and 21 in Canada, against 50 last year.

Infringement of Patent.

New York, March 26.—Judge Townsend, in the United States circuit court, handed down an opinion in the case of the Sunlight Incandescent Gas Lamp company, granting an injunction restraining the Sunlight company from manufacturing or selling incandescent gas-lamp mantles and ordering an accounting.

Southall Still in Jail.

St. Paul, March 26.—James A. Southall, accused of indefinitely large transactions in bogus government time checks, continues an inmate of the county jail. No bail has been offered. It is said the government has issued no time checks such as those negotiated by Southall since 1890, and all bearing any date later than that year are declared to be bogus.

Hunting For Work.

Anderson, Ind., March 26.—J. D. Mackey, who, until the crash came recently, was worth \$5,000,000, and was a leading railway man of the nation, but who is now penniless and homeless, is here looking for a position in an Anderson factory. He carries a letter of recommendation from Senator Fairbanks to Hon. W. T. Turbin, who is widely interested in manufacturing.

Prepare the Revenue Cutters.

Washington, March 26.—Orders were issued from the navy department to the commandant of the Norfolk navy yard directing him to prepare the revenue cutter vessels for service. He was directed to expedite the work as rapidly as it could be done efficiently.

Drawn Into a Sewer.

Elwood, Ind., March 26.—Harry, 7-year-old son of Solomon Addison, while playing at the edge of a pond, fell into the water and was drawn into a closed sewer under the street, where he was drowned.

Wedded a Long Time.

English, Ind., March 26.—John and Elvira Thixton celebrated their sixty-fifth marriage anniversary at their home. They were married in Boston, England. They are the parents of 14 children.

First Degree Murder.

Marion, O., March 26.—Lewis Wilkeson was convicted of murder in the first degree for the killing of Jim Woods.

Ordered to the Coast.

Milwaukee, March 26.—The revenue cutter Gresham, Captain A. B. Davis commanding, was ordered to the Atlantic coast.

A Public Hanging.

Colfax, Wash., March 26.—John Leonard was hanged here before one thousand people.

AN ICE CRUISER.

Monster Ship Under Construction For Travel In the Far North.

New York, March 26.—Vice Admiral Makaroff of the Russian navy, who has been assigned by his government to construct the most powerful ice crushing ship ever built, is in New York. He had been to ports along Lakes Erie and Michigan to see ice crushing ships at work there.

He has under construction at Newcastle, Eng., a floating ice crusher, which he believes will be able to cut its way through ice to the north pole.

Ex-Senator Blackburn Stricken.

Washington, March 26.—Ex-Senator J. S. Blackburn of Kentucky suffered a stroke of paralysis of the heart here, and it is feared it may cause his death. The ex-senator, accompanied by members of his family Thursday attended the launching of the battleships at Newport News and returned to Washington. While walking from the boat to his carriage he suffered a stroke of paralysis of the heart and became unconscious.

More Money For Pensions.

Washington, March 26.—The secretary of the interior sent to the house an estimate calling for appropriations of over \$8,000,000 to meet a deficiency in the pension funds. Of this amount \$2,000,000 is credited to the lack of last year's appropriation, and the other \$6,000,000 to large increases, restorations and new pensions granted. This brings the estimates so far submitted for incorporation into the general deficiency bill up to about \$14,000,000.

Experienced Men For Navy.

Cleveland, March 26.—Posters were placed in conspicuous places around the business portion of the city stating that the government wanted as many experienced men as it can get for the navy. The posters were forwarded to this city by Lieutenant Commander Everett of the United States battleship Michigan, which is now used as a naval recruiting station at Erie, Pa. The government announces that men are wanted who are especially qualified for the positions of seamen, ordinary seamen, chief machinists, machinists of the first class and machinists of the second class.

War Clauses Inserted.

New York, March 26.—Seaside summer resorts as a rule have been only slightly affected by the talk of war between the United States and Spain. War clauses canceling leases in case of hostilities are insisted upon by some cottagers, and in Atlantic Highlands the timid talk of the effect of a bombardment of Sandy Hook.

Purchased From Germany.

Washington, March 26.—The navy department was informed by cablegram from Lieutenant Colwell, naval attaché to the United States embassy at London, that agents of this government had purchased a "Schischau" torpedo boat that had been constructed for the German government. She is a 23-knot vessel.

Tug Purchased.

New York, March 26.—Negotiations have been completed for the purchase by the government of the tug Edward M. Timmins from the Mutual Lumber and Towing company. Mr. Timmins admitted that the sale had been made, but declined to give the amount paid for the vessel.

Sailed in a Hurry.

Newport News, Va., March 26.—The battleship Texas sailed suddenly when only a few tons of coal had been taken aboard. A large load of fuel was refused and the ship put to sea in a hurry. It is understood that she has gone to the Brooklyn navy yard.

To Be Tested.

New York, March 26.—The submarine boat Holland will be taken to Washington next week for a test before officials. The test will be speed, submarine and gun service. The boat will go to Washington through the canals.

Ammunition For Big Guns.

San Diego, Cal., March 26.—Forty thousand pounds of ammunition for the big guns to be mounted at Ballast Point has arrived here. This port will soon be in a position to strongly resist a hostile attack.

Says It Was Internal.

Madrid, March 26.—The report of the Spanish board of inquiry into the loss of the Maïre says emphatically that it is "scientifically and practically demonstrated that the explosion was internal."

Her Stem Twisted.

Waterford, March 26.—The Spanish torpedo boat destroyer Audaz has arrived here with her bows stove in and her stem twisted completely around about 10 feet from the stern.

Boys' Industrial School Burned.

Waukesha, Wis., March 26.—Fire destroyed the Wisconsin Industrial School for Boys. The 350 inmates escaped without injury and there was not much excitement. The loss is \$75,000.

DEADLY ASSAULT

As Charged Against An American Millionaire In Berlin.

Berlin, March 26.—The police have issued a circular containing a personal description of Edward Stempel, described as an American millionaire, born at Rock Island, Ill., and lately residing in a suburb of Berlin, asking for his arrest on the charge of committing a deadly assault on a fellow-passenger on a train. Stempel is said to be stopping at Nice with his family.

Rioters Indicted.

Muskogee, I. T., March 26.—William A. Lamon, a merchant; G. W. Gaines, agent of the Missouri, Kansas and Texas railroad, and Laton Sharpe, a section hand, all of Gibson station, I. T., have been indicted by the federal grand jury at Wagoner, I. T., for murdering Ed Chalmer and his wife, who were killed by the mob near Wybark.

Granted a Divorce.

Chicago, March 26.—Judge Brentano granted to Claudia Carstadt, the actress, a divorce from her husband after a hearing lasting but a few minutes. The divorce was granted under the name of Claudia Theresa Christie. M. S. Christie, it is said, will marry Albert Gallatin Wheeler, the New York millionaire.

Under the Wreck.

Newark, O., March 26.—Coroner Adams of Muskingum county visited the Frazeyshurg wreck scene. He believes from five to nine bodies are buried under the debris, as only 20 passengers have been accounted for. Certain passengers declare there were 30 passengers on board the train.

Shot by a Matchbox.

Rochester, Ind., March 26.—While George Ream was hunting ducks on Lake Manitou his gun was prematurely discharged, the load passing through his left side. A matchbox caused the shot to glance off, otherwise it would have been fatal.

Quite a Crash.

Philadelphia, March 26.—John S. Hopkins, cashier of the People's bank, suicided by shooting, and the bank has failed. He loaned the Guarantors' Finance company \$600,000 without authority, and that concern is bankrupt.

Perrine's New Comet.

Geneva, N. Y., March 26.—Professor Brooks of Smith observatory observed the new comet recently discovered at Lick observatory by Professor Perrine. It is not visible to the naked eye, but may be seen with a small telescope.

Old Man Suicides.

Columbus, O., March 26.—Emil DeMoyer, 67, a French Canadian, suicided by cutting his throat. His home was near Dighton, Osceola county, Mich., where he has a wife and children.

A Railroad Sold.

Baltimore, March 26.—The Columbia and Maryland railway was sold at auction to Mr. Nicholas R. Bond, president of the Baltimore Security and Trading company, for \$450,000.

Won by Fulford.

New York, March 26.—E. D. Fulford of Utica, N. Y., won the grand American handicap shoot at Elkwood park, New Jersey, with 48 straight kills to his credit.

Funeral of General Veazey.

Washington, March 26.—The funeral of the late General Wheelock G. Veazey, formerly interstate commerce commissioner, and one of the heroes of the late war, took place from Epiphany church, the Rev. L. G. Wood conducting the services.

Against Lay Representation.

Topeka, Kan., March 26.—By a vote of 10 to 13 the Central Methodist conference, in session here, cast its influence against the resolution of equal lay representation in the general conference.

Gigantic Trust Forming.

Chicago, March 26.—If present negotiations succeed the cigarette trust will absorb its big rivals in the plug tobacco business within the next few weeks.

A Public Funeral.

Pittsburg, March 26.—It has been definitely decided that the funeral of Lieutenant F. W. Jenkins next Wednesday will be a public one.

Deadwood, S. D., March 26.—The jury before which the Bellefourche bank robbers were tried has returned a verdict of not guilty. There is much public dissatisfaction.

Treasury Statement.

Washington, March 26.—The statement of the condition of the treasury shows: Available cash balance, \$224,474,672; gold reserve, \$172,219,161.

Minister Angell Returns.

Constantinople, March 26.—The United States minister, J. B. Angell has returned here from a tour of Egypt and Palestine.

Body Cut in Two.

Ashland, O., March 26.—Alva McClain fell under the wheels of a freight train and his body was cut in two.

UNSUCCESSFUL STRIKE

Employees of the Beckman Woolen Mills In Hard Luck.

Cleveland, March 26.—Between 300 and 400 employees of the Beckman woolen mills, who went on a strike some days ago for an increase in wages, have nearly all returned to work without gaining the increase demanded. The company had refused a general advance May 1. The employees, however, demanded that it go into effect at once, and, being refused, struck. The company now declares that no advance will be made during the present year.

Given an Object Lesson.

Columbus, O., March 26.—A report of the assignment of prisoners George Hobson of Hamilton county and Z. T. Lewis of Champaign, for violation of the rules of the penitentiary, was an error so far as the punishment of these men was indicated. While the deputy warden was hearing complaints against two other prisoners for violation of the rules he happened to look out of the window and observed Hobson and Lewis gesticulating and talking, and immediately ordered them brought before him. They admitted violating a rule by talking, and to impress them with the penalty paid by wrong doers the officials had the other prisoners, who were old offenders, punished by ducking in the presence of Hobson and Lewis.

Contractors Indicted.

New York, March 26.—In the Kings county criminal court in Brooklyn 14 or 15 indictments were handed down by the grand jury against former city officials and contractors of Brooklyn. Theodore B. Willis, former commissioner of public works, and William E. Phillips, police commissioner of Greater New York, are among those indicted. They furnished bonds in \$5,000 each.

Captain Sampson In Command.

Washington, March 26.—An order issued by the navy department carries out the announcement of Secretary Long that Captain Sampson would command the North Atlantic squadron. The order as issued reads that he is "commander-in-chief of the North Atlantic station." Admiral Sicard was detached from command of the North Atlantic squadron and allowed six months' leave.

To Go Back to the Fields.

New York, March 25.—Horatio S. Rubens, consul of the Cuban junta, says in regard to the sending of supplies to Cuba: "The sending of relief supplies to Cuba is not so much intervention as assistance to the Spanish government. It enables Spain to spend for munitions of war to fight the Cubans the money which humanity dictates should go to the reconcentrados. That these unfortunates should receive relief is beyond question. Such is the earnest desire of every man with a spark of humanity, but the only true remedy is, as General Proctor says, to allow them to go back to the fields."

Purchasing Supplies.

Vallejo, Cal., March 25.—Great activity prevails at the Mare Island navy yard. The cruiser Philadelphia has been hauled from the stream and lies alongside the quay wall, near the Charleston. The gunboat Yorktown has also been towed to the wall and all three ships fairly swarm with men at all hours. The Charleston is rapidly nearing completion and will be ready to go into commission in a comparatively short time. The Yorktown, too, is nearly ready for sea, and the purchase of supplies for both are now being made.

Forts to Be Connected.

Washington, March 25.—The largest order ever placed by the government for cables was given to the Safety Insulated Wire and Cable company of New York city for submarine and underground cables, connecting all the forts and islands of New York harbor.

Loss at Pittsburg.

Pittsburg, March 25.—As the flood subsides the inundated districts in the two cities presents a desolate appearance and the residents are beginning to suffer the after effects of the high water. At 10 a. m. it had receded two and a half feet, which is six inches below the danger line. From careful estimates made it is believed the loss in and about Pittsburg and Allegheny will reach \$1,000,000.

A Load of Coal.

Philadelphia, March 25.—The government tug Leyden sailed from the League Island navy yard for Key West, having in tow the barge Edith Howes loaded with coal.

Carriage Works Closed.

Bellefontaine, O., March 26.—Sheriff Shaw closed the establishment of the Bellefontaine Carriage Body company on a judgment for \$2,000 brought by Mr. J. H. Young of Piqua, O.

Higher Insurance.

London, March 26.—Lloyds regard the situation as being worse and are asking 2s guineas on war risks.

AFTERMATH OF FLOOD.

Zanesville and Dayton Were Worst Sufferers.

MANY FAMILIES DESTITUTE.

One Building Association in Dayton Holds Mortgages on Two Hundred of the Houses Which Were Inundated.

Cincinnati, O., March 26.—So far as terror and loss of life and property from flood is concerned that is all over in the interior and on tributaries of the Ohio. But the want and desolation in the track of the storm are sadly manifest.

The greatest damage to homes seems to have been at Dayton and at Zanesville. In these two cities hundreds of families have been driven from their homes and are made dependent on public charity, which has been bounteously bestowed.

In Dayton one building association has mortgages on 200 inundated houses. Many of the occupants will lose their homes if not assisted.

The Ohio river is rising at all points from Parkersburg to Cairo. At Cincinnati at 10 p. m. the stage was 53.3 feet, a rise of four-tenths of a foot in four hours, which rate is maintained. It will reach 55 feet here.

Passed the Danger Point.

Portsmouth, O., March 26.—The Ohio river passed the danger line (50 feet) at 10 a. m. At 6 p. m. it was 53 feet and rising at the rate of four inches an hour. Mill and East Front streets are flooded and people are moving out. Several large manufacturing establishments have been compelled to shut down. The Norfolk and Western, the Cincinnati, Portsmouth and Virginia and the Baltimore and Ohio Southwest have annulled all trains. Indications are that the river will reach 58 feet, which will put it in the center of the town.

Scene of Desolation.

Parkersburg, W. Va., March 26.—This city presents a scene of desolation caused by the flood. The river is still rising, although very slowly. The stage is now 47 feet 2 inches. About 250 families have been forced to move out of their houses. Several churches, the City hall and some clubs have given refuge to the homeless. The destruction wrought here can not be estimated, but will be enormous. People are moving out of second-story windows in the lower end of the city.

Highest Since 1884.

Vincennes, Ind., March 26.—The Wabash river is higher than it has been since 1884. Back water from the Wabash and Embarras rivers has submerged the lowland, and people are going from this city to Lawrenceville, Ill., nine miles away, in boats. Hundreds of people are rendered homeless, and the loss will be up in the thousands.

STEAMER CHINA

Strikes Shore and May Go Totally to Pieces.

Perim, Island of Perim, March 26.—It develops that the steering gear of the Oriental steamer China, ashore on Azala Point, has been carried away, and that her double bottom has been pierced forward.

The company's steamer Carthage and the government steamers Orlando and Mayo have left Aden to assist the stranded vessel. The mails, baggage, specie and the 403 passengers on the China have been landed here. She is full of water and Lloyd's agent says she will probably be a total loss.

The China sailed from Melbourne on March 2 for London. She is 7,899 registered tonnage and of 4,165 net tonnage. She is built of steel and has 10 compartments.

Furnaces Will Close Down.

Cleveland, March 26.—The members of the newly formed pig iron combine held another meeting here at the office of Pickens, Mather & Company. The meeting was very secret, but it was learned that a committee had been appointed to regulate the output of iron. It is stated that it is the intention to close down a number of furnaces until present stocks are consumed, when an effort will be made to bring about an advance in prices.

Grand Steeplechase.

Liverpool, March 26.—The grand national steeplechase, the great event of its kind of the year, which was run at Aintree, near here, was won by Drog-heda. Cathal was second and Gauntlet third. Twenty-five horses started.

Additional Mails.

Alexandria, Ind., March 26.—The Interurban Electric railway began to carry mail between this city and Anderson. Five additional mails will be added to the present service.

ACTING GOVERNOR WORTHINGTON pardoned five murderers Friday. In the name of Justice, Governor Bradley should stay at home and not turn affairs over to this weakling from Greenup any more.

SENATOR PROCTOR'S rousing speech in which he advocated intervention in Cuba in the most emphatic terms has caused Senator Mark Hanna the greatest possible kind of regret. The Senator blames Senator Proctor for the country's war fever, which he says was brought about by the speech. In expressing his regret Senator Hanna said: "I would, I think, have gone on my knees before him and asked him not to speak. It was so many firebrands thrown broadcast over the country."

If Hanna had his way he would fold his hands and let Spain starve every man, woman and child in Cuba to death rather than go to war and compel the Spaniards to stop their brutality.

FARMERS, ATTENTION.

The farmers and horsemen of the county should give some attention to the breeding and raising of horses. This season it is a fact that good horses are getting scarce, and if the dealers continue to buy and ship horses from this county as they have been doing the past year, the price of horse flesh is bound to go high, and there will be none to be had even at good prices. Wouldn't it be well for the farmers and horsemen who have good brood mares to turn their attention to the breeding of good saddle, roadster, hackney and draft horses, for which they can always find a ready sale?

SOME POINTS ON SMALLPOX.

We wish to direct the attention of our local authorities to the circular recently issued by the State Board of Health, since the conclusions reached are thoroughly practical and in perfect harmony with the principles of sanitation recognized and practised in this community for many years. It is said of a famous Captain that always after a battle, he rode thoughtfully over the field and studied the lesson of the day. This is precisely what the State Board of Health has just done. They have gone carefully over the fiercely contested field of Middlesborough (now in quiet possession of the Federal forces) and the result of their observations is laid before the public in a remarkably clear and comprehensive statement issued on the 25th of March. The lesson is exceedingly impressive and the practical suggestions founded upon it are exceedingly important. The statement itself is clear, temperate, sensible and in perfect taste. It is a sort of recapitulation but not a direct from the field of battle, and will render the old "stamping ground" at Middlesborough memorable in the sanitary annals of the State.

The points to which we desire to direct special attention are these: (1) The indispensable preventive measure is thorough and systematic vaccination. The board recommends that vaccination be made compulsory—"beginning with the colored race, but reaching everybody." This is perfectly right. There is no room for racial distinctions or idle questions of precedence on matters of this sort. (2) The uselessness, the expenseiveness and positive disadvantage of the so-called "measures of quarantine." To secure the least degree of effectiveness would require a large sanitary force, and, under the most carefully arranged conditions, the only effect is to shut off regular traffic and allow the smallpox infection to filter through. Why quarantine the railways against the infected vagrant or tramp? Although a creature of migratory instincts, he seldom travels first-class, usually preferring a free swing on the turnpike roads to the best accommodations in a Pullman car. Could he be effectively reached by posting a sanitary officer at a railway station? Of course not. The best that could be done (and this would certainly be a stroke of economy) would be to require our tollgate guards to arrest and detain all infected or suspicious tramps until they can be transferred to the pest house by the local board of health! But the State board says very wisely: "No quarantines," unless properly authorized, they are illegal; they are expensive; they are obstructive to commerce; they are practically useless, and, says Secretary McCormack, fresh from the field at Middlesborough, they are "delusive."

So much for quarantine; it is a delusion and a snare.

(3) It was a rule enunciated by the judicious Mrs. Glass to catch your hare before you cook it. After the same fashion, the smallpox doctor is cautioned not to run a case in without due warrant, and,

when in doubt, to take advice. Varioloid is at times almost indistinguishable from chickenpox. Every experienced and educated physician knows this; but the truth is that the more incompetent the sanitary expert, the more likely he is to go off half cocked, and the more certain he is to be cock sure. Unfortunately, cocksuredness is one of those maladies that cannot be stamped out.

(4) And, finally, the State Board has the wisdom to say and we cannot too highly commend the utterance: "This board holds itself in readiness to aid all local boards to the full extent of its powers, but little aid will be needed from it if each community will intelligently prepare to take care of itself." This is correct, incontestable, old-fashioned, iron-clad constitutional doctrine. As a rule, we do not invoke State or Federal aid until the Sheriff and posse comitatus are definitely knocked out. The people will cheerfully sustain this reasonable and well-considered decision of the State Board of Health.

IT WAS A MINE

That Destroyed the Battleship Maine.

Summary of the Verdict of the Court of Inquiry.

WASHINGTON, March 27.—The abstract of the report of the Court of Inquiry which investigated the wrecking of the battleship Maine is made up of eight parts, as follows:

1. The court finds that at the time of the explosion the battleship Maine was in five and one half to six fathoms of waters.
2. The discipline aboard the ship was excellent; everything stowed according to orders—ammunition, guns, stores, &c. The temperature of the magazines at 8 p. m. was normal, except in the after ten-inch magazine, and that did not explode.
3. The explosion occurred at 9:40 o'clock on the evening of February 15. There were two explosions, with a very short interval between them; the ship lifted on the first explosion.
4. The court can form no definite opinion of the condition of the wreck from divers' evidence.
5. Technical details of wreckage from which court deduces that a mine was exploded under the ship on the port side.
6. The explosion was due to no fault of those on board.
7. Opinion of the court stating that the explosion of the mine caused the explosion of two magazines.
8. The court declares that it cannot find evidence to fix responsibility.

The report is signed by all the members of the court.

Why the Maine Was Sent to Havana.

(Chicago Chronicle.)

Mr. McKinley has determined that in no event, if he can possibly prevent it, shall the blowing up of the Maine become a casus belli. He assumes all responsibility for that terrible disaster in Havana harbor, and is perfectly willing that Spain shall be acquitted.

Mr. McKinley is a thoroughly conscientious man, and he has suffered a great deal of remorse on account of the loss of the Maine. He sent the battleship to Cuba over the protests of Consul General Lee and against the advice of every member of his Cabinet save Alger. He permitted the impression to go out that the Maine was going to Havana for the protection of American interests, when, as a matter of fact, nothing could have been further from the truth. The ship was sent to Cuba in order to further the plans of Sagasta and Blanco for forcing autonomy upon the Cuban people.

Beats the Klondike.

Mr. A. C. Thomas, of Marysville, Tex., has found a more valuable discovery than has yet been made in the Klondike. For years he suffered untold agony from consumption, accompanied by hemorrhages; and was absolutely cured by Dr. King's New Discovery for consumption, coughs and colds. He declares that gold is of little value in comparison with this marvelous cure; would have it, even if it cost a hundred dollars a bottle. Asthma, bronchitis and all throat and lung affections are positively cured by Dr. King's New Discovery for consumption. Trial bottles free at J. James Wood's drug store. Regular size 50 cents and \$1. Guaranteed to cure or price refunded.

THE special series of services being held in the Central Presbyterian Church by the pastor Rev. J. C. Molloy are increasing in interest and attendance. A very cordial invitation is extended to every unconverted and converted person in Maysville and vicinity to attend these services, which will continue during the week, each evening at 7:30.

THE astronomers of the University of California have completed their computation of the comet discovered by Prof. Perrine, and according to them the comet will become brighter and remain in sight for some time. It is now traveling toward the earth at the rate of 1,000,000 miles a day. It is visible about 4 o'clock in the morning.

JOHN CROW, husband of the woman shot while resisting arrest by Constable Charles Cropper and his posse, of Lewis County, was released from jail at Vanceburg Friday, having completed his sentence for carrying concealed weapons. Crow's two daughters are still in jail, but will be released on bond. Mr. Crow says he will bring a damage suit against the men who killed his wife.

THE union meeting at the court house was well attended, and the singing was a special feature, furnished by a choir from the First Presbyterian Church. Twelve more converted last night, making twenty-eight in all. The evangelist will preach to-night at the West End Mission. His lecture at the court house at 2 p. m. Sunday to men only was well received by all present.

HON. FRANCIS T. HORD was renominated by acclamation for Judge of the Ninth Indiana district by the Democratic party last week. He has served the people of that district as Judge for six years and has given such satisfaction that he had no opposition. Judge Hord formerly resided in Maysville and has many relatives and friends here, being a brother of Mrs. J. B. Noyes and Mrs. Mary Clark, of this city.

THE White and Martin business house occupied by the Keith-Schroeder Harness Company, the Red Skin Tobacco Factory and Lingenfelter & Co., just west of the First National Bank, was sold at public auction last Saturday afternoon, Mr. C. F. Taylor officiating. Mr. Charles H. White was the successful bidder, the property bringing \$10,000. Mr. White already owned a half interest in the property, and now gets the Martin interest for \$5,000. He will probably make handsome improvements to the building at an early day.

THE United States continues to provision the world and clothe it to some extent, remarks an exchange. During the month of February our exports in these lines aggregated \$14,000,000 more than during the corresponding month last year. Breadstuffs footed up \$21,898,172, which was an increase of nearly \$7,000,000. Cotton went abroad to about the same value, an increase of about \$4,500,000. Our bill against the old world for provisions was \$11,881,784, which is about \$2,161,000 more than last year in the same month, and our exports of cattle and hogs reached a total of \$3,102,147, an excess of about \$400,000. During the last eight months we have run up a little bill against our neighbors across the sea for the necessities of life which exceeds our bill to them for the corresponding months of last year by about \$63,842,000.

Carpetings For Spring.

We have the exclusive control here of a large manufacturer's output, embracing fully one hundred different patterns in Tapestries, Brussels, Moquettes, Velvets and Ingrains. After long and careful consideration we have adopted this method of Carpet selling for two reasons. First, we can give you a selection in point of quantity, quality and artistic designing the Cincinnati markets cannot rival, an impossibility under other conditions, as we have not the room to carry such an enormous stock as our selection line represents. Secondly, we can sell cheaper, much cheaper, than under the old method, as the factory carries our stock for us, and we need keep no reckoning of profit-clipping, remnants and unpopular patterns. Entering upon this different arrangement in our Carpet business there are three points in which we determine to excel:

PRIVATE PATTERNS. HIGH GRADE GOODS AT LOW PRICES. CARPET-MAKING.

Think over what this means. First, you need not cover your floor with hackneyed patterns. On the contrary exclusive and fresh designs are at your disposal. Second, you need pay no more for the best than poorer grades cost elsewhere. Third, when the carpet-making is entrusted to us, we will have all carpets machine-stitched; bordered Carpets will be faultlessly mitered and sized. No ripped seams, no puckered corners, the cost no more. We solicit your patronage on this basis. Orders can be filled within twenty-four hours. Come in and look over our line.

McGANN AND LEEVER.

Hanon of the Pennant Winners Pays the Ex-Maysville Captain a High Compliment—Leever's All Right.

Captain Dennis McGann's many friends in Maysville will be glad to learn he is winning his way to the front in the base ball world. Manager Hanlon has this to say of the Orioles' new first baseman:

"From what I have already seen of McGann, I am convinced that he is the equal of any first baseman in the league, with possibly one exception—Doyle. He has some few things yet to learn, but who hadn't when they were as young in the business as he? With a little instruction he will be all that could be desired in the fielding line, and his batting is now what we want. I am pleased that he does as well as he has on these grounds. There has been no rain here for some weeks, and the surface is as hard and baked as our grounds are in July. But this surface here is knotty and uneven. Just get up there and try to see how many balls on this ground would fly up and take you in the stomach." Danny is being instructed at present in fielding to the pitcher, who runs to cover the bag. Manager Hanlon impersonates the pitcher at times, and cautions McGann to "take plenty of time" and "toss the ball low so that both it and the pitcher will reach the bag at the same moment." It must be said that McGann is an apt pupil and is improving daily in all the little fast tricks of the Oriole trade. Manager Hanlon also said that some of the drives neatly taken in by McGann, Doyle would not have attempted, owing to the uncertainty of the ground.

You want to keep your eye on Sammy Leever, also. In a game at Little Rock Friday between opposing nines of the Pittsburg, a special says: "Leever's remarkable speed was a matter of much comment among the players and spectators. The new twirler shot the ball across the plate so fast that the regulars could not follow it with their early spring eyes, and their third hit, which sent in the run, was the result of the inexperience of a sub-outfielder."

STILL RISING SLOWLY

Was the River at 10 O'Clock This Morning. Top of Rise Expected To-day.

The river had reached a stage of 56.3 feet here at 10 o'clock this morning and was still rising slowly. The top of the rise is expected here to-day, and if the morning's rain was not very heavy at headwaters the flood will soon subside.

The big river has flooded many houses in the lower districts of this city and at Aberdeen, and is interfering considerably with traffic east of Limestone. The foot paths along the railroads afford about the only way of reaching the east end now.

MESSRS. WELLS & HUFF purchased a pair of fine dapple-gray coach horses at the Ripley sales Saturday. The pair are six years old, stand sixteen hands high and weigh 1,330 pounds each.

Now is the Time

For fine photography. The return of Spring is an ideal time for a new Photograph. Also a satisfactory likeness makes a thoughtful Easter souvenir to some absent friend. Clear weather is not now necessary to fine work.

DEATH'S DOINGS.

Mrs. Elizabeth Oliver and Mrs. Elizabeth Helmer Passed Away Last Saturday.
The Funeral Arrangements.

Mrs. Elizabeth Oliver died Saturday, March 26th, at the home of her daughter, Mrs. Geo. Oldham, after a lingering illness.

She was born in Fauquier County, Virginia, in 1824, and came to this city when only nine years old and here the rest of her life was spent.

Two daughters, Mrs. Alwilda Wheeler, of Cincinnati, and Mrs. George Oldham, of this city, survive her.

She was a devout Christian, having been a member of the First Baptist Church for over fifty years.

The funeral will occur Tuesday afternoon at 2 o'clock at the First Baptist Church. Burial in the Maysville cemetery.

MRS. ELIZABETH HELMER.

Mrs. Elizabeth Helmer died Saturday morning about 11 o'clock at her home 206 West Second street, of old age. She had been failing for some time.

Elizabeth (Kohler) Helmer was born in Wittenberg, Germany, and was seventy-five years old last Christmas. She had been a resident of Maysville since 1847. Eight children survive her, four sons and four daughters. Her husband, George Helmer, has been dead several years.

The funeral arrangements have not been announced.

James Duncan died Friday at his home in the First ward, of cardiac asthma, aged seventy-five years. He was buried Saturday in the Maysville Cemetery.

JACOB A. SLACK.

Mr. Jacob A. Slack, a well-known farmer of this county, died Saturday morning at the residence of his brother-in-law, Mr. Oscar Barrett, in the Highlands, near Newport. The deceased had been a sufferer from abscess of the kidneys for some time, and had been residing at Mr. Barrett's house for the past six months, to be treated for the disease. He was thirty-seven years of age and unmarried. The remains were brought to Maysville this morning for interment.

Deceased was a son of the late Jacob Slack, and was a stepson of Mrs. Mary Slack, of Forest avenue.

Mrs. THOMAS BASKETT and children and her sister, Miss Conway, who had been visiting her, left for Winchester Saturday where they expect to reside in the future. Mr. Baskett will leave in a few days.

PURNELL AGAINST THE CITY.

Opinion of the Appellate Court On the Question of Appointing Special Policemen.

In affirming the above case, the Court of Appeals in an opinion by Judge Paynter says:

1. The City Council of cities of the fourth class have the exclusive right to appoint the regular city policemen and fix the number thereof. The Chief of Police may, with consent of the Mayor, appoint special policemen for a limited time, and on special occasions, but may not appoint a regular policeman, nor can he appoint a special policeman from time to time so that his services will be almost continuous.

2. It cannot be said that two months is an unreasonable time for Chief of Police to keep a special policeman on duty.

INJURED BY A HORSE.

The Venerable Robert Terhune Meets With a Very Serious Accident.

The venerable Robert Terhune, of Tuckahoe, met with a serious accident Saturday. He had hold of a horse when the animal suddenly pulled back, throwing him to the ground and fracturing one of his hips.

Mr. Terhune is eighty-one years old, which fact renders the accident all the more serious.

He will probably be a cripple the rest of his life.

PREFER DISGRACE TO WAR.

Seathing Arraignment of the "Business Interests" and the Money Power.

New York, March 25.—The Sun to-day prints under the head, "The Worst Investment," the following editorial:

"Silently and secretly, but with persistence, the powerful influence of what is known as the 'business interests,' has been exerted to deflect the administration from the course as to Cuba which statesmanship marks out for it with singular clearness. The business interests, in which all other things, including a political sense, particularly, are subordinated to commerce, would prevent the clash of war or even the diplomatic negotiations that lie on the road to war, at any price.

"For the United States they would accept the disgrace of Spanish barbarity unmolested, and the Cuban struggle for liberty half betrayed.

[Extract From Senator Thurston's Speech.]

"Mr. President, against the intervention of the United States in this holy cause there is but one voice of dissent; that voice is the voice of the money changers. They fear war! Not because of any Christian or ennobling sentiment against war and in favor of peace, but because they fear that a declaration of war, or the intervention which might result in war, would have a depressing effect upon the stock market.

"Mr. President, I do not read my duty from the ticker, I do not accept my lessons in patriotism from Wall street. I deprecate war.

"War with Spain would increase the business and the earnings of every American railroad; it would stimulate every branch of industry and domestic commerce; it would greatly increase the demand for American labor, and, in the end, every certificate that represented a share in an American business enterprise would be worth more money than it is worth to-day. But in the meantime the specter of war would stride through the stock exchanges, and many of the gamblers around the board would find their ill-gotten gains passing to the other side of the table.

"Let them go. What one man loses at the gaming table his fellow gamblers win. Let them take their chances as they can. Their weal or woe is of little importance to the liberty-loving people of the United States. Let the men whose loyalty is to the dollar stand aside while the men whose loyalty is to the flag come to the front.

HEALTH and strength carry us through dangers and make us safe in the presence of peril. A perfectly strong man with rich, pure blood, has nothing to fear from germs. He may breathe in the bacilli of consumption with impunity. If there is a weak spot where the germs may find an entrance to the tissues, then the trouble begins. Disease germs propagate with lightning-like rapidity. Once in the blood, the only way to get rid of them is to kill them. This is what Dr. Pierce's Golden Medical Discovery is for. It purifies the blood. That means that it kills the germs but that is only part of what it does. It assists digestion by stimulating the secretion of digestive fluids, so promoting assimilation and nutrition; purifies and enriches the blood and so supplies the tissues with the food they need. It builds up strong, healthy flesh and puts the whole body into a disease-resisting state.

The Chesapeake and Ohio has been the only eastbound road out of Cincinnati that has been open through to the seaboard during the high water, and in consequence the freight traffic has been unusually heavy. In addition to taking care of its own business the road has been handling a great deal of freight for other roads and has kept every car and available engine in service.

Hollow Society.

"Oh, pa," exclaimed the dear girl, her sapphire eyes brimming with unshed tears, "how can you say that society is hollow?"

"Why shouldn't I?" retorted pa, with a coarse laugh that betrayed the fact that he had paid more attention to making money than to acquiring polish. "Why shouldn't I, when I have to pay the bills for feeding the gang that you have here at your blow outs?"—Indianapolis Journal.

Pennsylvania produces hardware manufactures to the value of \$388,000,000 yearly, which is equivalent to \$74 per inhabitant, the average in Great Britain being \$19 and in Germany \$10.

Some departments of the cotton mills are not running to-day on account of the high water.

All on Account of the Deacon.

"There's another war on between Closer and Pinchem."

"No? What's the matter this time?"

"Of course you know they hate each other. Been rivals in business and society for years. Long ago both wanted to marry the same girl, and neither got her. Each blames the other for that. Mention Closer to Pinchem and he wants to fight. Mention Pinchem to Closer and he'll swear in the richest vocabulary a profane man ever accumulated.

"Deacon Worthy was the occasion of the most recent rupture. He was raising money for some good purpose and went to Closer, who headed the list with \$300 under a positive agreement that \$200 of the amount was to be immediately handed back to him. When the deacon went to Pinchem, there were red splashes on the moon. He denounced Closer as a miser and a shark. The idea of his having subscribed but \$300 to such a cause was disgraceful. Pinchem put down \$500 and generously told the deacon to call on him if more were needed.

"When Closer saw the list again, he was tickled into a coughing fit and had word conveyed to Pinchem of his agreement with the deacon. They thought for a time that they'd have to put Pinchem in a straitjacket. The names he called Closer would keep a stenographer busy for a week. They reached Closer, and now there is to be a slander suit. Each has vowed to whip the other on sight, and it is better than a circus to see how they dodge each other in their daily walks. The deacon only smiles while he deplores the fact that any bad feeling was created."—Detroit Free Press.

A Few Requisites.

The hired girl out of a job cast her eagle eye over the want notices of the newspaper. "Wanted, Wanted, Wanted," she read in one or two line ads straight down the column, shaking her head at intervals as if disappointed in her search. Finally her face lightened as she saw a leaded notice in another column of more pretensions than its fellows.

She turned to it and read eagerly. Then she threw the paper from her.

"What's the matter?" asked the girl with her.

"Read that." And she gathered up the sheet and handed it over to the other one, who read this notice:

"Wanted—A young and strong woman of good disposition and habits, obedient and knowing her place, willing and ready, active and efficient, to cook, wash and iron, do general housework and take care of children. Evenings and afternoons off when possible. Apply, with references, etc."

"Well?" said the reader.

"It's not well at all," responded the one looking for work. "That man, who over he is, is advertising for a wife, I should say from the advertisement, and I'm not looking for that kind of a job. Just a plain hired girl's place is good enough for me."—Washington Star.

| Receipts for year to date..... | 17,866 | 17,801 |

The Cincinnati Leaf Tobacco Warehouse Company, in its circular for the week, has the following:

The upward tendency of our market which we mentioned in our last report and which has been noticeable for about a month, has continued during the past week, and while prices have not yet reached the point which is predicted by the most confident, they are surely beginning to look high, on new stock in particular. All manufacturers are eager buyers of the latter, and the supply is hardly equal to the demand. The condition of these goods is, naturally, at this time of the year, and particularly so in the wet weather of the past week, very soft, but this fact did not seem to be a bar to strong and lively bidding. The general advance in prices since the first of the month may be safely stated to be from 1 1/2c. to 2c. The offerings were heavy on Wednesday only, fair on Thursday and very light on Tuesday and Friday. Receipts are lighter than the sales, and hence there is a gradual reduction of stocks. Only little tobacco remains in the hands of farmers, and the holdings of country dealers are, of course, much lighter than in ordinary years, so that the prospects are for only a moderate supply on the breaks. Old stock is offered in limited quantities, and has also advanced in price, selling considerably higher than it did a month ago. There is not a great quantity of these goods left unsold, but sufficient to keep the breaks fairly supplied up to the time when the new will be marketed in keeping order, and there seems to be a disposition on the part of holders to close them out by that time. We feel assured that this old stock will find a very favorable market between now and May.

From all reports preparations for the new crop are very extensive, and there will probably be no serious lack of plants this spring. If the seasons are all favorable, this year's crop ought to equalize last year's shortage.

The Coal

You Didn't Order

Is what got for you a cold reception at home. If you want to have "a hot time" at your home twenty-four hours in the day, use SEMI-CANNEL COAL. It burns clean and not too fast; throws out a steady, strong heat and holds fire all night. Take a trial order to-morrow—and when you order a load you'll get FULL WEIGHT everytime, being one of the things we are very particular about.
